Why First Fiduciary Corporation for Accounting Services?

First Fiduciary Corporation was the first professional fiduciary in Minnesota, founded in 1969. We have nearly 50 years of experience and have built a reputation as a trusted leader in the field of fiduciary management. Our employees are held to the highest ethical and professional standards, and are amongst the most highly trained and experienced professionals working today.

First Fiduciary Corporation's (FFC) Accounting Services assist companies and individuals with financial analysis and accounting in situations when your business does not have the staff or expertise for accounting work that is needed for your company. FFC is able to combine our accounting knowledge with our nearly 50 years of experience to provide expert service and accuracy. FFC's accounting staff have credentials as Certified Public Accountant (CPA), Certified Fraud Examiner (CFE), Bachelor of Science (BS) in Accounting and Bachelors of Business Administration (BBA). Our staff members have many years of experience in traditional accounting as well as auditing and forensic accounting. Since FFC is not a CPA firm offering traditional auditing services we have fewer conflicts of interest than other firms that perform accounting services.
